

On the Drivers customer tab, they can see all the bulk breakers, pox under their distributor, and they can also see their one-off customers. The Drivers can search for the customer using the search bar. To capture sales to one-off customer, click on one-off sale. Input their name and phone number or search for their name to know if you have previously sold to them. Click on Capture coordinates. This will help to connect the driver to the customer. Click on Continue. Select the product and input the quantity the customer is buying and the empties they are returning. Click on View Order Summary to see the total orders, empties cost, outstanding balance, and the total amount the customer needs to pay. Input the amount the customer is paying. Click on Proceed. Click on Yes, Confirm. Click on OK. Click on Generate Invoice. The driver can share and download the receipt.
