

How to capture walk-in sale for non-registered customers. On KUJA, you can capture a walk-in sale for a one-off customer who is not registered in the database. First, go to the Quick Action tab on the homepage and click Capture Walk-in Sale. Or go to the Orders module and select Walk-in Sale. Navigate to Sell to One-Off Customer. Search to see if the customer has been captured. If not, register them as a one-off by entering their phone number and their name. Click Save Information. Select the brand the customer is buying. Enter the quantity the customer is buying. Click Capture Sale. Since these are non-returnable products, you will see there are no empties to return. Input the amount the customer is paying. Click Capture Sale, then confirm by selecting Yes, Capture Sale. Click Generate Receipt and Download Receipt and share it to the customer. This process ensures one-off customers are properly recorded and payments are captured accurately.
