

How to Capture Walk-in Sale for Registered Customer On KUJA, you can capture sales to a registered customer in just a few steps. Go to the Quick Action tab on the homepage and click Capture Walk-in Sale. Or go to the Orders Module and select Walk-in Sale. Navigate to Sell to Registered Customer. Search for the customer's name. Select the brand they are buying. Enter the quantity. Click View Added Products to see the items you've added. You can edit the order. Then click Capture Sale. Next, enter the empties the customer needs to return. Click Collect Other empties. If they also want to return empties from a previous sale. Enter the quantity. Input the amount the customer is paying. Click Capture Sale again, then confirm by selecting Yes, Capture Sale. Finally, click Generate Receipt. Then Download Receipt. And Share it with the customer. This process ensures sales are recorded correctly. Empties are tracked and payments are captured.
