

How to process pickup orders. Whenever you receive an order from a customer who wants pickup, KUJA makes it simple. Go to the Quick Actions tab on the homepage. Click Process Open Orders. Select the pickup order. Then click Action and choose Process Pickup. If the customer is returning empties from a previous sale, click Collect Other empties. Enter the quantity and continue. Next, input the amount the customer is paying. Click Capture Sales, then confirm by selecting Yes, Capture Sales. You can view the customer details. The Order Timeline. The Payment Summary. Total amount paid. Outstanding Balance, which is the amount the customer is owing. This process helps you manage pickup orders smoothly, track empties. And keep accurate records of payments and balances. Lastly, click Generate Receipt. Download the receipt and share it to the customer.
