

How to Revert in Order Reverting in Order in Cooja simply means moving it back to open orders. This is useful if the driver you previously assigned orders to cancels, or if the customer changes their mind about whether they want pick up or store delivery. Go to the Orders tab. Navigate to the assigned orders list. Select the order you want to revert. Scroll down to the order timeline. Click on the three dots. Then click Revert to open. And confirm by selecting. Yes, revert the order status. The order will immediately move back to open orders, ready to be reassigned or processed again. This process helps you manage cancellations smoothly and keep orders organized.
